At Tri-State Fabricators, Inc., we have always cared profoundly about our customer partnerships, team, business and the beautiful country in which we live and work. We refer to this as the "TSF Method" and it has served us extremely well for over 28 years.

Today, we remain faithful in preserving the values Tri-State Fabricators, Inc. was founded on in 1983 and vow to continually improve our organization via hard work, innovation, technology enhancements, the kaizen method, velocity scheduling, and our strategic quoting methodology to provide unsurpassed quality, lead times, and pricing.

This pamphlet along with our exceptionally detailed Web Site will provide you with a plethora of information demonstrating our vast array of capabilities and high quality; however, discussing your needs in person with us and taking an on-site tour of our operation will assure you we are who we say we are: a first-rate one-source solution for all your metal fabrication and finishing needs.

**Wide Array of Product Capabilities
Serving All Industries**

Pride in Our Work from Start to Shipping

Precision Metal Fabrication

A leader in custom metal fabrication for over 28 years. We work with a wide array of materials including (but not limited to) the following:

- Hot-Rolled Steel
- Cold-Rolled Steel
- Stainless Steel
